

HYDROFLO®

Telescopic inlet valve with Compact Float and Brass Tail

Applications

Designed for use as a replacement in most plastic and ceramic exposed and concealed cisterns

Also supplied as standard or as an optional extra in Dudley cisterns

- ~ True AG Air Gap
- ~ No silence tube

Water Saving

Delay fill saves water and supports BREEAM by only allowing a cistern to start refilling once flushing is complete.

Features

- ~ Telescopic height adjustment 203mm (8") to 292mm (11½")
- ~ Professional ½" BSP brass tail
- ~ Compact body and float assembly
- ~ New simple and efficient 2-piece filter design
- ~ Unique float arm makes it impossible for the float to become detached
- ~ 3 available options of quiet fill technology:

Valve Option		ozzle Enhanced		ontrol Regulated	WRAS Approved
Standard	~		~		~
Enhanced		~	~		~

- ~ Enhanced option offers integrated quiet fill action
- ~ Flow Regulated option includes integrated quiet fill action together with 6 litre per minute flow control for ultimate quiet fill performance.
